

NEON

SUNGLASSES 19120 COLLECTION

BUILD YOUR OWN STYLE

NEONOPTIC SUNGLASSES MADE IN ITALY

Neon is an Italian brand that offers cutting-edge and high quality products entirely Made In Italy. Our work is constantly based on fundamental principles:

PROTECTION

each product responds to very precise protection characteristics and we constantly search for materials that can maximize performance in terms of protection, because we care about your health, and in terms of performance, because you deserve to win.

QUALITY

in the production process, there is none variable than Quality, because we want to transmit positive emotions and a unique experience interacting with three elements such as technicality, comfort and safety.

STYLE

Neon products are not only Technology but also Design, expression of a strong and distinct style, the NEON style.

**Discover our world and wear
your passion in safety**

LENS TECHNOLOGY

MIRRORTRONIC LENS

TYPE	CODE	DESCRIPTION	CAT.	VLT %	CONDITIONS

	X14	STEEL	CAT 4	5%	

TRONIC is the technology created and applied exclusively to each type of our lenses. This technology, not only filters the low-energy rays called UVA but also the passage of ultraviolet radiation of any wavelength emitted by the sun. In nature we know that there are three types of ultraviolet light:

UVA identifies the lowest energy

UVB the high energy rays that cause the greatest damage to the eyes

UVC it is the strongest form of solar radiation. We are proud to have created **TRONIC**, a technology that filters 100% of UVA, UVB and UVC rays. This protection is integrated during the production process. TRONIC not only offers an advantage in terms of protection, but offers an improvement in visual performance.

No distortion, better perception, clear vision, excellent performance

MIRRORTRONIC LENS innovative mirror treatment to get the best of UV protection 100%

POLARTRONIC

TYPE	CODE	DESCRIPTION	CAT.	VLT %	CONDITIONS
	X2	SMOKE	CAT 3	10%	

POLARTRONIC To get the best of visibility destroying all reflection and glares and to avoid any difficulties to understand the weather 100% uv protection.

POLARTRONIC PLUS fusion of two technologies, innovative mirror treatment plus polarized system that destroying all reflection and glares, to give you the clearest vision in the world 100% UV protection

POLARTRONIC PLUS

TYPE	CODE	DESCRIPTION	CAT.	VLT %	CONDITIONS
	X3	BLUE	CAT 3	9%	

PHOTOTRONIC is a type of Neon's lenses that changes its features of color tint depending on the amount of light (ultraviolet rays) that are cast upon the lens. When more light is encountered the lens becomes Darker (Cat.3), conversely, when less light is shining the lens becomes lighter in color (Cat.1) 100% UV PROTECTION.

PHOTOTRONIC

TYPE	CODE	DESCRIPTION	CAT.	VLT %	CONDITIONS
	X1	SMOKE	CAT 1-3	71%-11%
